

INTERNSHIP CERTIFICATE

We hereby confirm that Mrs. Xinyu Sun born on March 30th, 1998 has done an internship in our company from September 1st, 2023 to February 16th, 2024. Mrs. Sun joined us as an Autonomy Engineer Intern working mainly on Robotics Simulator related topics.

In this position, Mrs. Sun was responsible of the following tasks:

- Conducting thorough research to clearly understand our team's needs and selecting the appropriate tools for the simulator project.
- Creating a simulator that includes a virtual drone platform, designed to match the specifications of our Elios 3 drone.
- Implementing detailed simulations of critical sensors like Lidar and IMU, ensuring a highly realistic and effective testing setup.
- Developing various environments within the simulator that reflect our specific use cases, enhancing the relevance and applicability of the simulation tests.
- Completing and delivering a fully functional simulator, aimed at improving the speed and efficiency of algorithm development for other teams.

Mrs. Sun demonstrated great adaptability and a strong motivation to excel in new situations. Mrs. Sun has earned the trust placed in her and demonstrated a deep commitment to serving Flyability. She adeptly handled all assigned tasks, showcasing a solid understanding of Robotics Simulators. Throughout the internship, she worked efficiently and thoughtfully, earning our appreciation for her effectiveness. Additionally, Mrs. Sun demonstrated versatility and autonomy when required.

Her team spirit greatly contributed to the cohesion and dynamism within the company. Furthermore, she maintained excellent relationships with both managers and colleagues, fulfilling her tasks to our satisfaction.

Mrs. Sun concludes her time with us but still remains under professional secrecy. We confidently recommend her to future employers and would like to take this opportunity to thank her for her dedication and the quality of her work throughout the entire internship.
